George Nichols, Jr.  
Pike Water Works Assoc., Inc.  
P.O. Box 269  
Pike, NH 03780

Subject: PWS Haverhill - Public Water System: Pike Water Works (EPA #1101030)

Dear Mr. Nichols:

The records of the NH Department of Environmental Services (DES) show that Pike Water Works water system is classified as a public water system (PWS), as defined by RSA 485:1-a. A PWS is defined as any water system supplying 15 or more services, or 25 or more people for 60 or more days per year. As such, the water system owner is required to submit chemical samples according to the system's established sampling schedule to the State laboratory or a State-certified laboratory in compliance with NH Administrative Rule Env-Ws 326. Pursuant to Env-Ws 351, the failure to submit a chemical sample requires that public notice of such failure be given to all consumers.

DES records show that the subject water system failed to submit the following chemical sample result for the following monitoring period (calendar quarter).

**Quarter 4, 2003 – Radiologicals ("RAD")**

As a result of the failure to submit the above-described sample, a Notice of Violation (NOV), dated **January 20, 2003**, was sent to you (copy enclosed). The NOV requested that you immediately submit the above-described sample as a make-up sample. To date, DES has not received the make-up sample result, thus placing the water system in violation of Env-Ws 326. DES believes the monitoring/reporting deficiency can be addressed by taking the following actions:

1. **By June 1, 2004**, submit the RAD sample as a "make-up sample" to the State laboratory or a State-certified laboratory. Please use the enclosed analysis result form when submitting the sample to your laboratory.
2. **By June 1, 2004**, provide proof of public notice to DES for the failure to submit the Quarter 4 2003 RAD sample, as specified on the enclosed form.

In the event compliance is not achieved within this period, DES may take further enforcement action. These actions include issuing an order requiring the deficiencies to be corrected, initiating an administrative fine proceeding, and/or referring the matter to the NH Department of Justice for imposition of appropriate penalties.

The proof of public notice as requested above should be addressed as follows or faxed to (603) 271-5171:

Betsey McNaughten  
Department of Environmental Services  
Water Supply Engineering Bureau  
29 Hazen Drive, PO Box 95  
Concord, NH 03302-0095

If you have any questions regarding this letter, please contact Betsey McNaughten at (603) 271-0659 or by email at [emcnaughten@des.state.nh.us](mailto:emcnaughten@des.state.nh.us).

Sincerely,

**COPY**
